TAYLOR MADE SYSTEMS FEATURES CENTER CONSOLE WINDSCREEN OPTIONS FOR BOATS AT IBEX 2015

GLOVERSVILLE, N.Y. – Sept. 17, 2015 – Taylor Made Systems will showcase numerous windscreen designs for center console and fish & ski boats at the 2015 International BoatBuilders’ Exhibition and Conference (IBEX).

“This year, we took our commitment to enhancing windshield styling and functionality, and we reexamined small to medium sized fishing vessels,” said Mike Oathout, vice president, sales and marketing, Taylor Made Systems. “This is a segment where boatbuilders might not be aware of the many options that Taylor Made can offer them.”

One such option is the Frameless Windscreen, where glass is securely bonded on the bottom with nothing but glass on the top. The driver’s view is completely unobstructed, allowing the best possible view of the water while still providing protection from wind and rain. Taylor Made offers patented fabric fastening systems for these Frameless Windscreens as well.

Another system includes robust, welded aluminum construction. It is capable of providing structural support for the hardtop in the console area, thereby increasing boatbuilders’ design options. The tempered safety glass used in this system has an automotive looking glass exterior for a modern appearance despite the sturdy nature of the framing.

“It’s all about providing the boatbuilder with options,” said Oathout. “In fact, the new designs that you will see in our booth all go a long way toward allowing our boatbuilding partners to distinguish themselves and their brand. No other marine glazing provider offers the

array of options that Taylor Made does to get away from the generic and, truly, make a boat stand out.”

About Taylor Made Systems

A member of Taylor Made Group, LLC, Taylor Made Systems (www.taylormadesystems.com) is based in Gloversville, N.Y. Together with its partner, Trend Marine Products Limited, Taylor Made Systems is the world’s largest manufacturer of marine glazing systems and the acknowledged leader in framed-glass windshield technology for powerboats. Other marine product lines include manual and power-actuated doors, roofs, window systems, skylights and hatches. The company also supplies glass products for a variety of agricultural, construction, mass transit and emergency vehicle applications.

About Taylor Made Group

Headquartered in Gloversville, N.Y., Taylor Made Group, LLC (www.taylormadegroup.com) has more than 100 years of experience as one of the recreational marine industry’s largest, most diversified suppliers to boatbuilders and the aftermarket. Employing over 1,000 associates, The Taylor Made Group includes Taylor Made Products (Gloversville, N.Y.), Taylor Made Systems (Gloversville, N.Y. and Kendallville, Ind.), Taylor Made Glass Systems (Payne, Ohio and Kendallville, Ind.), Ameritex Fabric Systems (Bradenton, Fla.), Trend Marine Products Limited (Catfield, Great Yarmouth, U.K.), Taylor Made Glass & Systems Limited (Templemore, County Tipperary, Ireland) and Taylorbrite (Gloversville, N.Y.). The Group operates seven facilities in the United States, the Republic of Ireland and the United Kingdom — with additional licensed affiliates in Australia, New Zealand and Poland — and distributes its products through a worldwide distribution network.
